RECOMMENDED SOLUTION

Make the changes described below to the Track My Application navigation & copy, based on guidance from TMP. The changes correspond to the following attached file:

- * 09. Track My Application Navigation.pdf
- A) Change the Track Your Application to Track My Application on all pages on the backend that show the "For Applicants" open navigation.
- o AT07 link to: https://at07apply.grants.gov/apply/checkApplStatus.faces
- o Production link to: https://apply07.grants.gov/apply/checkApplStatus.faces
- B) Update bullets to read:
- o The user must enter (a) valid tracking number(s): NO VALIDATION of entered numbers is performed.
- o The system will return the available status for VALID tracking numbers only.
- o Invalid tracking numbers will receive this message: There is no status available for the tracking number(s) entered.
- o Depending on system load, it may take an extended period of time for status to become available.

Until status is available for valid tracking numbers, the following message will be returned by the system:

There is no status available for the tracking number(s) entered.

- C) Invalid tracking number(s) should return the result: "Tracking number does not exist"
- D) See attached file above for example(s) of design element
